Notable features:

Numbers 1218-1220 W. Baltimore Street are an attractive pair of houses which retain their original windows. The proportions of 1218 are especially pleasant. Every effort should be made to retain these buildings. The cornice of the shop front at 1218 is original; the windows on the Stockton Street side now blocked up could be reopened. Both 1218 and 1220 provide an opportunity for housing above and shop below.

Environmental context:

Moore Institute building to west and one-story junk to the east put these nice houses in isolation scale-wise. They can and should be incorporated in a redesign of the commercial street.
